Product Specifications

Product: Peroxidase-conjugated AffiniPure Rabbit Anti-Chicken IgY^{††}(IgG) (H+L)

Code Number: 303-035-003

Lot Number: 78802

Physical State: Freeze-dried solid

Size: 1.5 ml

Protein Concentration: 0.8 mg/ml

Suggested Working Dilution: For blocking purposes, use 5% (v/v) solution (1:20 dilution from rehydrated volume).
Rehydration according to instruction yields 100% serum.

Buffer: 0.01M Sodium Phosphate, 0.25M NaCl, pH 7.6

Preservative: None

Reconstitution and Storage: Store freeze-dried powder at 2-8°C. When ready to use, rehydrate with 1.5 ml dH₂O and centrifuge if not clear. Product is stable for about 6 weeks at 2-8°C as an undiluted liquid. Prepare working dilution fresh each day. For extended storage after rehydration, aliquot and freeze at -70°C or below. Avoid repeated freezing and thawing. Alternatively, add an equal volume of glycerol (ACS grade or better) for a final concentration of 50%, and store at -20°C as a liquid. Note: adding glycerol reduces the stated protein concentration and dilution range by one-half. ***Expiration date:*** one year from date of rehydration. The expiration date may be extended if test results are acceptable for the intended use.

Process: Normal serum is lipid extracted and dialyzed against the above buffer.

Country of Origin: USA

Note: For *in vitro* research use only, not for diagnostic or therapeutic use. This product is not a medical device.
