Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

Date of issue: 25/04/2024

Version: 3.1

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Form

: Mixture

: 308-005-003

Product Name

[:] AffiniPure[™] Rabbit Anti-Horse^{††} IgG (H+L)

Product Code

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

- Use of the substance/mixture
- : For in vitro research use only. Not for diagnostic or therapeutic use. This is not a medical device. Contact supplier for specific applications.

Furonean Contact

1.2.2. Uses advised against

1.3. Details of the supplier of the safety data sheet Manufacturer

| Manufacturer | European Contact |

Email address for the person responsible for this SDS: tech@jacksonimmuno.com

1.4. Emergency telephone number

Emergency number : +1-610-869-4024 (USA)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification According to Regulation (EC) No. 1272/2008 [CLP] Not classified

Adverse physicochemical, human health and environmental effects

No additional information available

2.2. Label elements

Labelling According to Regulation (EC) No. 1272/2008 [CLP] No labelling applicable

2.3. Other hazards

Other hazards not contributing to the : Exposure may aggravate pre-existing eye, skin, or respiratory conditions. classification

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixture

| First-aid measures after skin contact : Remove contaminated clothing. Drench affected area with water for at least 5 minutes. Obtain medical attention if irritation develops or persists. First-aid measures after eye contact : Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists. First-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain medical attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/effects : Not expected to present a significant hazard under anticipated conditions of normal use. Symptoms/effects after inhalation : May be harmful or cause irritation. Symptoms/effects after eye contact : Prolonged exposure may cause skin irritation. Symptoms/effects after eye contact : May cause slight irritation to eyes. Symptoms/effects after eye contact : None expected under normal conditions of use. 4.3. Indication of any immediate medical attention. If medical advice is needed, have product container or label at hat aster strenguishing media Suitable extinguishing media : Water spray, fog, carbon dioxide (CO ₂), alcohol-resistant foam, or dry chemicat use attenguishing media Suitable extinguishing media : Do not use a heavy water stream. Use of heavy stream of water may spread fire Sustable extinguishing media : Product is not flammab | First-aid measures after inhalation | : Using proper respi | ratory prote | ection, move the exposed person to fresh air at once. |
| First-aid measures after eye contact : Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists. First-aid measures after ingestion : Rinse mouth. Do NOT induce vomiting. Obtain medical attention. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/effects : Not expected to present a significant hazard under anticipated conditions of normal use. Symptoms/effects after inhalation : May be harmful or cause irritation. Symptoms/effects after eye contact : May cause slight irritation to eyes. Symptoms/effects after ingestion : Ingestion may cause adverse effects. May be harmful if swallowed. Chronic symptoms : None expected under normal conditions of use. 4.3. Indication of any immediate medical attention. If medical advice is needed, have product container or label at hat Section 5. Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Water spray, fog, carbon dioxide (CO ₂), alcohol-resistant foam, or dry chemical use extinguishing media Special hazards arising from the substance or mixture : Product is not flammable. Explosion hazard : Product is not flammable. Explosion hazard : Phosphorous oxides. Sodium oxides. Hydrogen chloride gas. case of | First-aid measures after skin contact | : Remove contamina | ted clothin | g. Drench affected area with water for at least 5 |
| 4.2. Most important symptoms and effects, both acute and delayed Symptoms/effects Not expected to present a significant hazard under anticipated conditions of normal use. Symptoms/effects after inhalation May be harmful or cause irritation. Symptoms/effects after skin contact Prolonged exposure may cause skin irritation. Symptoms/effects after eye contact May cause slight irritation to eyes. Symptoms/effects after ingestion Ingestion may cause adverse effects. May be harmful if swallowed. Chronic symptoms None expected under normal conditions of use. 4.3. Indication of any immediate medical attention and special treatment needed If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hare Statistic extinguishing media Water spray, fog, carbon dioxide (CO₂), alcohol-resistant foam, or dry chemicat use extinguishing media appropriate for surrounding fire. Unsuitable extinguishing media Do not use a heavy water stream. Use of heavy stream of water may spread fire Stat advice for firefighters | First-aid measures after eye contact | : Rinse cautiously w present and easy t | vith water fo o do. Contin | or at least 15 minutes. Remove contact lenses, if |
| Symptoms/effects : Not expected to present a significant hazard under anticipated conditions of normal use. Symptoms/effects after inhalation : May be harmful or cause irritation. Symptoms/effects after skin contact : Prolonged exposure may cause skin irritation. Symptoms/effects after eye contact : May cause slight irritation to eyes. Symptoms/effects after ingestion : Ingestion may cause adverse effects. May be harmful if swallowed. Chronic symptoms : None expected under normal conditions of use. 4.3. Indication of any immediate medical attention and special treatment needed If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hard SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Water spray, fog, carbon dioxide (CO ₂), alcohol-resistant foam, or dry chemicat Use extinguishing media a porporiate for surrounding fire. Unsuitable extinguishing media : Do not use a heavy water stream. Use of heavy stream of water may spread fire 5.2. Special hazards arising from the substance or mixture Fire hazard : Product is not explosive. Reactivity : Hazardous reactions will not occur under normal conditions. Hazardous decomposition products in case of fire : Phosphorous oxides. | First-aid measures after ingestion | : Rinse mouth. Do N | OT induce v | omiting. Obtain medical attention. |
| normal use.Symptoms/effects after inhalation: May be harmful or cause irritation.Symptoms/effects after skin contact: Prolonged exposure may cause skin irritation.Symptoms/effects after eye contact: May cause slight irritation to eyes.Symptoms/effects after ingestion: Ingestion may cause adverse effects. May be harmful if swallowed.Chronic symptoms: None expected under normal conditions of use.4.3.Indication of any immediate medical attention and special treatment neededIf exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at harSECTION 5: Firefighting measures5.1.Extinguishing mediaSuitable extinguishing media: Water spray, fog, carbon dioxide (CO2), alcohol-resistant foam, or dry chemicat Use extinguishing mediaSuitable extinguishing media: Do not use a heavy water stream. Use of heavy stream of water may spread fire5.2.Special hazards arising from the substance or mixtureFire hazard: Product is not flammable.Explosion hazard: Product is not explosive.Reactivity: Hazardous reactions will not occur under normal conditions.Hazardous decomposition products in case of fire: Phosphorous oxides. Sodium oxides. Hydrogen chloride gas.S.3.Advice for firefightersPrecautionary measures fire: Exercise caution when fighting any chemical fire.Firefighting instructions: Use water spray or fog for cooling exposed containers. | 4.2. Most important symptoms | and effects, both acute | and delay | red |
| Symptoms/effects after skin contactProlonged exposure may cause skin irritation.Symptoms/effects after eye contactMay cause slight irritation to eyes.Symptoms/effects after ingestionIngestion may cause adverse effects. May be harmful if swallowed.Chronic symptomsNone expected under normal conditions of use.4.3.Indication of any immediate medical attention and special treatment neededIf exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at harSECTION 5: Firefighting measures5.1.Extinguishing mediaSuitable extinguishing mediaWater spray, fog, carbon dioxide (CO2), alcohol-resistant foam, or dry chemicat Use extinguishing mediaSuitable extinguishing mediaDo not use a heavy water stream. Use of heavy stream of water may spread fire5.2.Special hazards arising from the substance or mixtureFire hazardProduct is not explosive.ReactivityHazardous reactions will not occur under normal conditions.Hazardous decomposition products in case of firePhosphorous oxides. Sodium oxides. Hydrogen chloride gas.5.3.Advice for firefightersPrecautionary measures fire Firefighting instructionsExercise caution when fighting any chemical fire.Use water spray or fog for cooling exposed containers. | Symptoms/effects | | esent a sign | ificant hazard under anticipated conditions of |
| Symptoms/effects after eye contact: May cause slight irritation to eyes.Symptoms/effects after ingestion: Ingestion may cause adverse effects. May be harmful if swallowed.Chronic symptoms: None expected under normal conditions of use. 4.3. Indication of any immediate medical attention and special treatment neededIf exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at har SECTION 5: Firefighting measures5.1. Extinguishing mediaSuitable extinguishing mediaSuitable extinguishing media: Do not use a heavy water stream. Use of heavy stream of water may spread fire 5.2. Special hazards arising from the substance or mixtureFire hazard: Product is not flammable.Explosion hazard: Product is not explosive.Reactivity: Hazardous decomposition products in: Phosphorous oxides. Sodium oxides. Hydrogen chloride gas.case of fire 5.3. Advice for firefightersPrecautionary measures fire: Exercise caution when fighting any chemical fire.: Firefighting instructions: Use water spray or fog for cooling exposed containers. | Symptoms/effects after inhalation | : May be harmful or | · cause irrita | ation. |
| Symptoms/effects after ingestion : Ingestion may cause adverse effects. May be harmful if swallowed. Chronic symptoms : None expected under normal conditions of use. 4.3. Indication of any immediate medical attention and special treatment needed If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at har SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Water spray, fog, carbon dioxide (CO ₂), alcohol-resistant foam, or dry chemicat Use extinguishing media : Do not use a heavy water stream. Use of heavy stream of water may spread fire 5.2. Special hazards arising from the substance or mixture Fire hazard : Product is not flammable. Explosion hazard : Product is not explosive. Reactivity : Hazardous reactions will not occur under normal conditions. Hazardous decomposition products in : Phosphorous oxides. Sodium oxides. Hydrogen chloride gas. case of fire : 5.3. Advice for firefighters : Exercise caution when fighting any chemical fire. Firefighting instructions : Use water spray or fog for cooling exposed containers. | Symptoms/effects after skin contact | : Prolonged exposur | re may caus | e skin irritation. |
| Chronic symptoms : None expected under normal conditions of use. 4.3. Indication of any immediate medical attention and special treatment needed if exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at har SECTION 5: Firefighting media Suitable extinguishing media Suitable extinguishing media : Water spray, fog, carbon dioxide (CO ₂), alcohol-resistant foam, or dry chemical Unsuitable extinguishing media : Do not use a heavy water stream. Use of heavy stream of water may spread fire 5.2. Special hazards arising from the substance or mixture Fire hazard : Product is not flammable. Explosion hazard : Product is not explosive. Reactivity : Hazardous reactions will not occur under normal conditions. Hazardous decomposition products in case of fire : Phosphorous oxides. Sodium oxides. Hydrogen chloride gas. 5.3. Advice for firefighters : Exercise caution when fighting any chemical fire. Firefighting instructions : Use water spray or fog for cooling exposed containers. | Symptoms/effects after eye contact | : May cause slight i | rritation to | eyes. |
| 4.3. Indication of any immediate medical attention and special treatment needed If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at har Section 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Suitable extinguishing media Suitable extinguishing media Unsuitable extinguishing media Source for firefighting from the substance or mixture Fire hazard Product is not flammable. Explosion hazard Product is not explosive. Reactivity Hazardous reactions will not occur under normal conditions. Hazardous decomposition products in case of fire Phosphorous oxides. Sodium oxides. Hydrogen chloride gas. S.3. Advice for firefighters Exercise caution when fighting any chemical fire. Firefighting instructions Use water spray or fog for cooling exposed containers. | Symptoms/effects after ingestion | : Ingestion may cau | se adverse e | effects. May be harmful if swallowed. |
| If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at har SECTION 5: Firefighting media Suitable extinguishing media Suitable extinguishing media Suitable extinguishing media Use extinguishing media Source for firefighting media Suitable extinguishing media Subscience Do not use a heavy water stream. Use of heavy stream of water may spread fire Suitable extinguishing media Product is not flammable. Explosion hazard Reactivity Hazardous decomposition products in Phosphorous oxides. Sodium oxides. Hydrogen chloride gas. case of fire S.3. Advice for firefighters Precautionary measures fire Firefighting instructions Subscience Stere caution when fighting any chemical fire. | Chronic symptoms | : None expected unc | ler normal o | conditions of use. |
| SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media : Water spray, fog, carbon dioxide (CO ₂), alcohol-resistant foam, or dry chemical Use extinguishing media appropriate for surrounding fire. Unsuitable extinguishing media : Do not use a heavy water stream. Use of heavy stream of water may spread fire 5.2. Special hazards arising from the substance or mixture Fire hazard : Product is not flammable. Explosion hazard : Product is not explosive. Reactivity : Hazardous reactions will not occur under normal conditions. Hazardous decomposition products in case of fire : Phosphorous oxides. Sodium oxides. Hydrogen chloride gas. 5.3. SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

| Genera | l measures | : Avoid prolonged contact with eyes, skin and clothing. Avoid breathing (vapor, mist, spray). |
|---------|------------------------------|--|
| 6.1.1. | For non-emergency personnel | |
| Protect | tive equipment | : Use appropriate personal protective equipment (PPE). |
| Emerge | ency procedures | : Evacuate unnecessary personnel. |
| 6.1.2. | For emergency responders | |
| Protect | tive equipment | : Equip cleanup crew with proper protection. |
| Emerge | ency procedures | : Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area. |
| 6.2. | Environmental precautions | |
| | | : Prevent entry to sewers and public waters. |
| 6.3. | Methods and material for con | tainment and cleaning up |
| For cor | ntainment | : Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. |
| Methoo | ds for cleaning up | : Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill. |
| 6.4. | Reference to other sections | |

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

| SECTION 7: Handling and | storage |
|--------------------------------|--|
| 7.1. Precautions for safe hand | dling |
| Precautions for safe handling | : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid prolonged contact with eyes, skin and clothing. Avoid breathing vapors, mist, spray. |
| Hygiene measures | : Handle in accordance with good industrial hygiene and safety procedures. |
| 7.2. Conditions for safe stora | ge, including any incompatibilities |
| Technical measures | : Comply with applicable regulations. |
| Storage conditions | : Keep container closed when not in use. Store at 2-8°C (35.6°F - 46.4°F) under sterile conditions. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. |
| Incompatible materials | : Strong acids, strong bases, strong oxidizers. |

7.3. Specific end use(s)

For in vitro research use only. Not for diagnostic or therapeutic use. This is not a medical device. Contact supplier for specific applications.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

| Sodium chloride (7647-14-5) | | |
|-----------------------------|---------------------------|---------------------|
| Latvia | OEL TWA (mg/m³) | 5 mg/m ³ |
| Lithuania | IPRV (mg/m ³) | 5 mg/m ³ |

8.2. Exposure controls

Appropriate engineering controls

: Suitable eye/body wash equipment should be available in the vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

Personal protective equipment

Materials for protective clothing

: Gloves. Protective clothing. Protective goggles.

- : Chemically resistant materials and fabrics.
- : Wear protective gloves.
- : Chemical safety goggles.
- : Wear suitable protective clothing.
- : If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other information

Hand protection

Eye and Face Protection

Respiratory protection

Skin and body protection

: When using, do not eat, drink or smoke.

SECTION 9: Physical and chemical properties

| 9.1. | Information on basic physical and chemical properties |
|------|---|
|------|---|

| 9.1. Information on pasic physical and ci | lennical properties |
|---|-----------------------|
| Physical state | : Liquid |
| Colour | : Colorless liquid |
| Odour | : Odourless, as water |
| Odour threshold | : No data available |
| рН | : 7.6 |
| Evaporation rate | : No data available |
| Melting point | : No data available |
| Freezing point | : No data available |
| Boiling point | : No data available |
| Flash point | : No data available |
| Auto-ignition temperature | : No data available |
| Decomposition temperature | : No data available |
| Flammability (solid, gas) | : No data available |
| Vapour pressure | : No data available |
| Relative vapour density at 20 °C | : No data available |
| Relative density | : No data available |
| Solubility | : Water |
| Partition coefficient: n-octanol/water | : No data available |
| Viscosity | : No data available |
| Explosive properties | : No data available |
| Oxidising properties | : No data available |
| Explosive limits | : No data available |
| 0.2 Other information | |

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Hazardous reactions will not occur under normal conditions.

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

10.2. Chemical stability

Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

10.4. Conditions to avoid

Extremely high temperatures, and incompatible materials.

10.5. Incompatible materials

Strong acids, strong bases, strong oxidizers.

10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced. Thermal decomposition may produce: Phosphorus oxides. Sodium oxides. Hydrogen chloride gas.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity : Not classified

| Sodium phosphate dibasic (7558-79-4) | |
|---|---|
| LD50 oral rat | 17 g/kg |
| LD50 dermal rat | > 5000 mg/kg (50% solution) |
| Sodium chloride (7647-14-5) | |
| LD50 oral rat | 3550 mg/kg (Species: Wistar) |
| LD50 dermal rabbit | >10000 mg/kg (Species: New Zealand White) |
| LC50 inhalation rat (mg/l) | >42 g/m ³ (Exposure time: 1 h) |
| Skin corrosion/irritation | : Not classified |
| Serious eye damage/irritation | : Not classified |
| Respiratory or skin sensitisation | : Not classified |
| Germ cell mutagenicity | : Not classified |
| Carcinogenicity | : Not classified |
| Reproductive toxicity | : Not classified |
| STOT-single exposure | : Not classified |
| STOT-repeated exposure | : Not classified |
| Aspiration hazard | : Not classified |
| Symptoms/Injuries After Inhalation | : Prolonged exposure may cause irritation. |
| Symptoms/Injuries After Skin Contact | : Prolonged exposure may cause skin irritation. |
| Symptoms/Injuries After Eye Contact | : May cause slight irritation to eyes. |
| Symptoms/Injuries After Ingestion | : Ingestion may cause adverse effects. |
| Chronic Symptoms | : None expected under normal conditions of use. |
| Potential adverse human health effects and symptoms | : Based on available data, the classification criteria are not met. |
| SECTION 12: Ecological informa | ation |
| 12.1. Toxicity | |
| Ecology - general : | Not classified. |
| Sodium chloride (7647-14-5) | |

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

| EC50 Daphnia 1 | 1000 mg/l (Exposure time: 48 h - Species: Daphnia magna) | |
|-------------------|--|--|
| LC50 fish 2 | 12946 mg/l (Exposure time: 96 h - Species: Lepomis macrochirus [static]) | |
| EC50 Daphnia 2 | 340,7 (340,7 - 469,2) mg/l (Exposure time: 48 h - Species: Daphnia magna [Static]) | |
| NOEC chronic fish | 252 mg/l (Species: Pimephales promelas) | |

12.2. Persistence and degradability

| AffiniPure™ Rabbit Anti-Horse ^{††} IgG (H+L) | | |
|---|------------------|--|
| Persistence and degradability | Not established. | |
| I2.3. Bioaccumulative potential | | |
| AffiniPure™ Rabbit Anti-Horse ^{††} IgG (H+L) | | |
| Bioaccumulative potential | Not established. | |
| Sodium chloride (7647-14-5) | | |
| BCF fish 1 (no bioaccumulation) | | |
| 12.4. Mobility in soil No additional information available 12.5. Results of PBT and vPvB assessment | | |

No additional information available

12.6. Other adverse effects

Other information

: Avoid release to the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

| Product/Packaging disposal | : Dispose of contents/container in accordance with local, regional, national, and |
|----------------------------|---|
| recommendations | international regulations. |
| Ecology - waste materials | : Avoid release to the environment. |

SECTION 14: Transport information

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored, and can vary based on a number of variables that may or may not have been known at the time the SDS was issued. In accordance with ADR / RID / IMDG / IATA / ADN

| ADR | | IMDG | ΙΑΤΑ | ADN | RID | |
|----------------------------------|-------------------------|-----------------------|-------------------|-------------------|-------------------|--|
| 14.1. | UN number | | | | | |
| Not regulated for transport | | | | | | |
| 14.2. | UN proper shipping name | | | | | |
| Not appl | icable | Not applicable | Not applicable | Not applicable | Not applicable | |
| 14.3. Transport hazard class(es) | | | | | | |
| Not appl | icable | Not applicable | Not applicable | Not applicable | Not applicable | |
| 14.4. Packing group | | | | | | |
| Not appl | icable | Not applicable | Not applicable | Not applicable | Not applicable | |
| 14.5. Environmental hazards | | | | | | |
| Dangero | us for the | Dangerous for the | Dangerous for the | Dangerous for the | Dangerous for the | |
| environn | nent : No | environment : No | environment : No | environment : No | environment : No | |
| | | Marine pollutant : No | | | | |

14.6. Special precautions for user

Safety Data Sheet

According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

No additional information available

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

Contains no REACH substances with Annex XVII restrictions Contains no substance on the REACH candidate list Contains no REACH Annex XIV substances

Sodium phosphate dibasic (7558-79-4)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

Sodium chloride (7647-14-5)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

15.1.2. National regulations

No additional information available

15.2. Chemical safety assessment

No chemical safety assessment has been carried out

SECTION 16: Other information

| Date of Preparation or Latest Revision Data sources | 25/04/2024 Information and data obtained and used in the authoring of this safety data sheet could come from database subscriptions, official government regulatory body websites, product/ingredient manufacturer or supplier specific information, |
|--|---|
| Other information | and/or resources that include substance specific data and classifications according to GHS or their subsequent adoption of GHS. According to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 |

Indication of Changes No additional information available
