GHS SAFETY DATA SHEET

SECTION 1. IDENTIFICATION

1.1 GHS Product Identifier:

Product Name: Texas Red[®] dye-conjugated IgG Fraction Monoclonal Mouse Anti-Biotin

Other means of identification:

Product code #: 200-072-211

1.2 Recommended use of the mixture and restrictions on use:

For *in vitro* research use only. Not for diagnostic or therapeutic use. This is not a medical device. Contact supplier for specific applications.

1.3 Supplier's details:

Manufacturer

Jackson ImmunoResearch Laboratories, Inc.
872 West Baltimore Pike
West Grove, PA 19390
T: 800-367-5296, 610-869-4024
F: 610-869-0171
cuserv@jacksonimmuno.com
tech@jacksonimmuno.com
www.jacksonimmuno.com

European Contact

Jackson ImmunoResearch Europe LTD

1.4 Emergency phone number:

610-869-4024 (USA)

SECTION 2. HAZARD IDENTIFICATION

2.1 Classification: GHS UNITED STATES

Mixture, GHS category not classified

2.2 GHS USA label elements, including precautionary statements:

GHS Symbol: N/A

GHS Signal word: N/A

GHS Hazard statement: May be harmful if swallowed

GHS Precautionary statement: If swallowed call a poison center/doctor/physician if you feel unwell.

Jackson ImmunoResearch Laboratories, Inc.
872 W. Baltimore Pike
West Grove, PA 19390
800-367-5296, 610-869-4024, FAX:610-869-0171
cuserv@jacksonimmuno.com
www.jacksonimmuno.com
Product Code: 200-072-211

2.3 Adverse Human Health: Mixture may be irritating to the mucous membranes and upper respiratory tract.

Effects and Symptoms: May be harmful by inhalation, ingestion, or skin adsorption. May cause eye, skin, or respiratory system irritation. To the best of our knowledge, the toxicological properties have not been thoroughly investigated.

SECTION 3. COMPOSITION / INFORMATION ON INGREDIENTS

SECTION 4. FIRST-AID MEASURES

4.1 Description of First Aid Measures:

Inhalation:

Remove person to fresh air. If inflammation occurs, get medical attention.

Skin contact:

Basic hygiene should prevent any problems. If contact with this product leads to reddening, inflammation, or irritation, flush exposed area with running water and get medical attention.

Eye Contact:

If this product enters the eyes, flush the eyes with gently running water for at least 15 minutes. If inflammation occurs, get medical attention.

Ingestion:

Wash out mouth with water. Do not induce vomiting unless directed by medical personnel. No special precautions are taken to remove or detect the presence of endotoxin or pyrogens. If fever or adverse effects are experienced, get medical attention.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Suitable extinguishing media: Use an extinguishing agent suitable for the surrounding fire.

5.2 Unsuitable extinguishing media: None are known.

Conditions of flammability: Not flammable or combustible.

Specific hazards in case of fire: None are known.

5.3 Special protective equipment and precautions for fire fighters: For fires in enclosed areas, wear a self-contained breathing apparatus. Do not inhale combustion gases.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions:

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep

Jackson ImmunoResearch Laboratories, Inc.
872 W. Baltimore Pike
West Grove, PA 19390
800-367-5296, 610-869-4024, FAX:610-869-0171
cuserv@jacksonimmuno.com
www.jacksonimmuno.com
Product Code: 200-072-211

unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. For emergency responders, wear respiratory protection.

6.2 Environmental precautions:

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and sewers.

6.3 Methods and materials for containment and cleaning up:

Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up. Alternatively, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements, or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material, e.g. sand, earth, vermiculite, or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via licensed waste disposal contractor.

SECTION 7. HANDLING AND STORAGE

The information in this section contains generic advice and guidelines. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling:

Do not eat, drink, or smoke when using this product. Avoid contact with skin and eyes. Wash hands thoroughly after handling.

7.2 Conditions for safe storage, including any incompatibilities:

Store at 2-8°C. When ready to use, rehydrate with dH₂O and centrifuge if not clear. Product is stable for about 6 weeks at 2-8°C as an undiluted liquid. Prepare working dilution fresh each day. For extended storage after rehydration, aliquot and freeze at -70°C or below. Avoid repeated freezing and thawing. Alternatively, add an equal volume of glycerol (ACS grade or better) for a final glycerol concentration of 50%, and store at -20°C as a liquid. Note: adding glycerol reduces the stated protein concentration and dilution range by one-half. Store in original container away from incompatible materials and from food and drink. Do not store in an unlabeled container. Use appropriate containment to avoid environmental contamination. Consult Product Specification sheets for additional storage information.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters:

This product or any of its ingredients have no listed OSHA PEL, NIOSH REL, or ACGIH Threshold Limit Values (TLV).

Sodium azide (26628-22-8)

USA ACGIH	ACGIH Ceiling (mg/m ³)	0.29 mg/m ³
USA ACGIH	ACGIH Ceiling (ppm)	0.11 ppm (vapor)
USA ACGIH	ACGIH chemical category	Not Classifiable as a Human Carcinogen
USA NIOSH	NIOSH REL (ceiling) (mg/m ³)	0.3 mg/m ³
USA NIOSH	NIOSH REL (ceiling) (ppm)	0.1 ppm

8.2.1 Appropriate engineering controls:

No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne

Jackson ImmunoResearch Laboratories, Inc.
872 W. Baltimore Pike
West Grove, PA 19390
800-367-5296, 610-869-4024, FAX:610-869-0171
cuserv@jacksonimmuno.com
www.jacksonimmuno.com
Product Code: 200-072-211

contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation, or other engineering controls to keep worker exposure below any recommended or statutory limits.

8.2.2 Individual protection measures, such as personal Protective Equipment:

Respiratory protection: Use a properly-fitted, air-purifying, or air-fed respirator complying with an approved standard if a risk assessment indicates this is a necessity. Respirator selection must be on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Hygiene measures: Wash hands, forearms, and face thoroughly after handling chemical products, before eating, smoking, using the lavatory, and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure the eyewash station and safety showers are close to the workstation location.

Eye/face protection: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, or dusts.

Skin and body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Hand protection: Chemical resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Skin and body protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters, or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

Appearance: Purple solid

Odor: Odorless, as water

Odor threshold: Not available

pH: 7.6 when rehydrated with indicated volume of H₂O

Melting point/freezing point: Data is not available

Initial boiling point and boiling range: Data is not available

Flash point: Data is not available

Evaporation rate: Data is not available

Flammability: Data is not available

Burning time: Data is not available

Burning rate: Data is not available

Upper/lower flammability or explosive limits: Data is not available

Vapor pressure: Data is not available

Vapor density: Data is not available

Relative density: Data is not available

Solubility(ies): Soluble in warm and cold water

Jackson ImmunoResearch Laboratories, Inc.
872 W. Baltimore Pike
West Grove, PA 19390
800-367-5296, 610-869-4024, FAX:610-869-0171
cuserv@jacksonimmuno.com
www.jacksonimmuno.com
Product Code: 200-072-211

Partition coefficient: n-octanol/water
Auto-ignition temperature: Data is not available
Decomposition temperature: Data is not available
Viscosity: Data is not available
Explosive properties: Data is not available
Oxidizing properties: Data is not available

9.2 Other information: No additional information

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity: No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability: The product is chemically stable.

10.3 Possibility of hazardous reactions: Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid: No specific data.

10.5 Incompatible materials: No specific data.

10.6 Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products will not be produced.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects: RTECS#: VY8050000; CAS# 26628-22-8; EC# 247-852-1

Acute toxicity:

Sodium Azide: Oral Rat, LD50, 27 mg/kg
Sodium Chloride: Oral Rat, LD50, 3,000 mg/kg
Sodium Phosphate: Oral Rat, LD50, 17,000 mg/kg
Antibody/Serum Protein: Not established

Skin Corrosion/Irritation: Conclusion/Summary: Not available

Serious Eye Damage/Irritation: No known significant effects or critical hazards.

Respiratory or skin irritation: No known significant effects or critical hazards.

Germ Cell Mutagenicity: Conclusion/Summary: Not available

Carcinogenicity:

IARC: No component of this product is present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogen by IARC.

NTP: No component of this product is present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product is present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: Conclusion/Summary: Not available.

STOT - single exposure: No data available.

STOT - repeated exposure: No data available.

Aspiration hazard: No data available.

Information on the likely routes of exposure: Routes of entry anticipated: Oral, Dermal, and Inhalation.

Potential acute health effects:

Jackson ImmunoResearch Laboratories, Inc.
872 W. Baltimore Pike
West Grove, PA 19390

cuserv@jacksonimmuno.com
www.jacksonimmuno.com
Product Code: 200-072-211

Inhalation: No known significant effects or critical hazards.

Ingestion: No known significant effects or critical hazards.

Skin contact: No known significant effects or critical hazards.

Eye contact: No known significant effects or critical hazards.

Symptoms related to the physical, chemical, and toxicological characteristics

Inhalation: No specific data

Ingestion: No specific data

Skin contact: No specific data

Eye Contact: No specific data

Delayed, immediate, and chronic effects from short-and long-term exposure

Short-term exposure: Not available

Potential immediate effects: Not available

Potential delayed effects: Not available

Long-term effects: Not available

Potential immediate effects: Not available

Potential delayed effects: Not available

Potential chronic health effects:

Conclusion/Summary: Not available

General: No known significant effects or critical hazards.

Carcinogenicity: No known significant effects or critical hazards.

Mutagenicity: No known significant effects or critical hazards.

Teratogenicity: No known significant effects or critical hazards.

Developmental effects: No known significant effects or critical hazards.

Fertility effects: No known significant effects or critical hazards.

Other Information: Not available

SECTION 12. ECOLOGICAL INFORMATION

12.1 Ecotoxicity: Avoid release into environment. Runoff from fire control or dilution water may cause pollution.

12.2 Persistence and degradability

Conclusion/Summary: Not available

12.3 Bioaccumulative potential: Not available

12.4 Mobility in soil: Not available

Soil/water partition coefficient: Not available

Mobility: Not available

12.5 Results of PBT and vPvB assessment:

PBT: Not applicable

vPvB: Not applicable

12.6 Other adverse effects: No known significant effects or critical hazards.

SECTION 13. DISPOSAL CONSIDERATIONS

13.1 Disposal methods:

Jackson ImmunoResearch Laboratories, Inc.
872 W. Baltimore Pike
West Grove, PA 19390
800-367-5296, 610-869-4024, FAX:610-869-0171
cuserv@jacksonimmuno.com
www.jacksonimmuno.com
Product Code: 200-072-211

Product: Dispose of contents/containers in accordance with local/regional/national/international regulations. The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions, and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Uncontaminated waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and sewers.

Contaminated packaging: The generation of waste should be avoided or minimized whenever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and sewers.
