

This holiday season, JIR employees participated in Nemours/Alfred I DuPont Hospital for Children Toy Drive.

One of the core values held at Jackson ImmunoResearch is generosity. This holiday season, JIR employees participated in Nemours/Alfred I DuPont Hospital for Children Toy Drive. The Department of Child Life, Creative Arts Therapy and School Programs help patients and their families cope with hospitalization by providing toys that meet children's developmental needs, and comfort items that help children feel safe in an unfamiliar hospital environment.
